

“G” Jerry Truglia

Council of Advanced Automotive Trainers National Train the Trainer ATTP Master Instructor, New York State, CT and New Jersey ATTP Master Instructor, Society Automotive Engineers / Service Technician Society Board Member and Technical Committee Adviser, 2003 STS President, 2004 TST President and Founder, MACS Instructor, Fluke Master Instructor, SPX NYS Dyno Instructor, Rutgers University Instructor and recognized by the US EPA as a Technical Expert in the field of OBD.

Automotive Service Excellent Master Auto, Master Truck, L1, CNG, Undercar Specialist and School Bus Certified. Participated in writing the ASE L1 test questions, written automotive articles for CAAT and other publications, assisted in NAPA N.I.A.T. training courses and co-authored Getting to Know OBD II book with Ralph Birnbaum. Appeared on radio, TV, Internet and started up an online / Internet technical hot line. Provided OBD II Training for the State of Alaska, California, Ohio, Oregon, Illinois, Maryland, Massachusetts, Nevada, New Jersey, New York, Texas, Virginia, Wisconsin and the US EPA.

Mike Dabrowski

MA. Licensed Master electronic Tech.

Owned home entertainment repair shop, Color TV and Stereo Clinic for 10 years

Field service engineer Metritape, traveled the world maintaining, installing, The companies level gauging equipment and training technicians on the operation and maintenance. Designed, and wrote assembly language program for distributed data acquisition system.

Technical Consultant

Design and build manufacturing equipment including plastic extruding, thermoforming, fusing, cutting equipment. Hydraulic, Pneumatic equipment. Welding equipment, including micro spot welding, laser welding. The laser welder used two CO2 lasers to weld .001" thick stainless steel foil .

Designed and built. Environmental water sampling drilling machine, mounted to a 6 wheel ATV.

Mike Dabrowski

“Hobbit” Al Walker

Hobbit bought a Prius back in early 2005, and has been studying it and other vehicle propulsion and efficiency topics with great intensity ever since.

In the process, he has become an information resource on the cars, contributing all of his discoveries, modifications, and research back to the enthusiast community.

He brings a consumer-viewpoint wisdom into the technical training environment, and provides information from broad overviews to deep engineering detail.

Sulev "SWEDE" Oun

**1982 to present: Owner of O&K Truck Repairs Ltd. Tonawanda NY.
Instructor for the NYVIP-OBdII for "G" Jerry Truglia (A.T.T.S. Inc.)
Instructor- N.Y. ATTP
Presently redesigning ATTP curriculum**

**Developed Heavy Duty Brake course for NY.
Authored "Medium/Heavy Duty Electrical and Electronics" for Delmar**

**The following is a list of some of the organizations I am active in:
SAE, CAAT.
State chairman of maintenance council of NYS Motor Truck Association.
Also a member of various trade organizations.**

Kris Lewis

Owner Onsite Automotive Training and Consulting, Specializing in “One on One Training, Mechanics Education Association, Instructor, Tech Support Hotline SPX/OTC Genisys Platform Master Trainer, NY VIP OBDII Trainer A.T.T.S. Inc., CAAT Council of Advanced Automotive Trainers, TST Technician Service Training, Sponsoring Member, i-ATN, ASE Certified Master Automotive Mechanic, ASE L1 Certified, ASE Certified Service Consultant, ASA-NJ - Shop of the Year AASP -NJ - Rookie of the Year.

After 30 years in the Auto industry from turning wrenches to Shop manager and foreman, Kris has decided to concentrate and devote the last 15 years of his time to Computer Diagnostics, Drivability and Training. By still working in the bay, part time, he knows on what technicians deal with on a daily basis. Another way he stays involved in real world technicians is by working on a tech support hotline, where he handles 30-40 “Diagnosis to Completion” cars per day

His unique way of putting things in laymen’s terms have also helped him, with his part time project, which is being the production assistant to “Ron Ananian The Car Doctor” which is a nationally syndicated call-in Radio Show about car repair. With his dedication to his career and his hobby’s, Kris has also received his “Merchant Marine Officer” Master’s Captains license from the US Coast Guard.
